

An Innocent Political Prisoner?

ALLAN TITFORD – An Innocent Political Prisoner? No family should go through what the New Zealand Government put Mr and Mrs Titford and their young family through. A young innocent family destroyed by a Government more interested in appeasing part-Maori than looking after its citizens. A Government we believe was prepared to use corrupt documents to steal a farm for Te Roroa's "alleged" Treaty of Waitangi claim. A claim that had been rejected by Parliament in 1942 and a claim without one document to support it! Allan Titford, a man that has been harassed ever since, an innocent political prisoner in his own country?
