

Submissions to the Committee

-

While as many people as possible must make a submission to the Marine and Coastal Area Bill, they must also write to the Office of the House of Representatives, that any member of this Maori Affairs Select Committee that has misled Parliament, shown to be extremely racist toward non-Maori or expressed their very biased views at the first reading of the Bill, be expelled immediately.

A corrupt Select Committee can present a very biased conclusion/report to Parliament to sway a Bill in its favour and the public has no recall. A Select Committee must be fair, honest, have an open mind and not racially biased. We believe not all members of this Committee meet these criteria. www.onenzfoundation.co.nz.
